# 10 Years of Building a Stronger Delaware, District by District.

Ten years and \$575 million later, Delaware has found its formula for downtown development success. Ever since the Downtown Development District (DDD) Act was signed into law, the program has thrived in its efforts to accelerate private investment in designated downtown areas throughout Delaware.

As we celebrate the program's 10th anniversary, we are excited to share the extraordinary work of this true public-private partnership. Over 427 residential, commercial, and mixed-use projects have been completed. A total of \$39 million in state DDD funds has leveraged \$575 million in private investment. For every \$1 in DDD state funds, \$14.8 in private investment is brought to a local town or city.

We are proud of the DDD's success and hope you share our optimism for the future of Delaware's downtowns and the opportunity they hold for everyone.

# HISTORY OF DOWNTOWN DEVELOPMENT DISTRICT PROGRAM

In 2014, The DDD program was created to promote the revitalization of designated districts by leveraging state and local resources to spur private capital investment, improve commercial vitality, and build stable communities of long-term residents.

- 2014**
  - Gov. Markell announces first Districts
  - Seaford's 1st Large Project - The Residences at Seaford Place receives \$671K DDD Rebate
- 2016**
  - Five more Districts designated
  - \$115M in private investment to date
- 2018**
  - Gov. Carney Designates More Districts
  - 100 DDD projects completed to date
  - Georgetown's Jaelen LLC (SPLASH) receives \$458K DDD Rebate
- 2020**
  - 175 completed projects
  - Despite the COVID-19 crisis, demand for DDD rebate remains strong
- 2022**
  - Over 300 completed projects
  - \$24M in state funds leveraged \$356M
- 2024**
  - 427 completed projects
  - **OVER HALF BILLION IN PRIVATE INVESTMENT!**

# FORMULA FOR SUCCESS

At its core, the DDD program is a partnership between state and local governments to provide investors with incentives sufficient to overcome financial barriers associated with downtown redevelopment. Delaware Code guides the DDD program by establishing criteria and procedures for designating districts and eligibility criteria for investors seeking incentives.

**This partnership, combined with meaningful incentives and key stakeholders, helps District investors overcome the financial barriers and redevelopment challenges associated with downtown infill development.**

## STATE OF DELAWARE

- Governor designates Districts
- Office of State Planning Coordination (OSPC) facilitates application process
- Delaware State Housing Authority (DSHA) administers the DDD Rebate

## LOCAL GOVERNMENTS

- Identifies area in downtown needing revitalization
- Develops District Plan and adopts local incentives specific to District investors
- Markets DDD program to potential investors

## DISTRICT INVESTORS

Investors who make real property investments within a District boundary. This includes property owners, tenants, for-profit developers, nonprofit organizations, businesses, and homeowners.

- Eligible for a variety of state and local incentives
- Provides up to 20% rebate on eligible exterior, interior and structural improvements

# DISTRICT REBATE

The primary state-level incentive to support and encourage range of projects in designated Districts and is administered by DSHA.

This rebate is combined with municipal and other partner incentives to produce a compelling package for investors.

## QUALIFIED REAL PROPERTY INVESTMENT (QRPI)

Capital expenses necessary for the rehabilitation, expansion, or new construction of a commercial, residential, or mixed-use buildings.

“Hard costs” associated with building structure and often includes labor and material required to construct building envelope and interior.

**DISTRICT INVESTORS RECEIVE A REBATE OF UP TO 20 PERCENT OF THEIR QRPI.**

### Rebate Limit

Limited to \$2,000,000 per building or facility within a 5-year period.

### Performance-based

The project must be completed and placed in service to receive rebate.

## PROJECT SET-ASIDES

### Small Project Set-Aside

Minimum QRPI: \$25,000

Maximum rebate: \$70,000

Can apply anytime as long as funding is available

### Large project Set-Aside

Minimum QRPI: \$350,000

Maximum rebate: \$2,000,000

Reservation is required

### District Set-Aside

Based on District population to ensure that Investors from all Districts have reasonable access to DDD funds.

### Priority Consideration

When requests exceed available funding, priority is given to projects that meet mutual state and local community priorities.

# SUPPORT AND RESOURCES

Participating jurisdictions are part of a support network comprised of DSHA, OSPC and the Delaware Division of Small Business (DSB) to bring training, online resources, marketing materials and coaching to support Districts in attracting private investment and redevelopment.

## A ONE-TIME, YEAR-LONG CAMPAIGN

A one-year campaign of events and public outreach to **celebrate** 10 years of program achievements, **raise awareness** of impacts, and **recruit** stakeholders and investors.

## DDD STORY MAP

Showcases private investment in each District.

## COMMUNITY DEVELOPMENT COACH

Assists Districts in **building capacity** to attract new or expand existing businesses.

## CENTRAL INCENTIVES WEBSITE

Contains all incentives for District investors.

# PROTECTING HISTORIC RESOURCES

## PROJECT PROFILES

Over the past ten years, the DDD program has preserved approximately 120 historic structures that are either listed on or eligible for the U.S. National Park Services National Register of Historic Places. Many also received Federal and State Historic Preservation Tax Credits. These programs are providing investors enough incentive to face unknown and often costly challenges associated with renovating existing building stock. *The following are examples from Fiscal Year 2024.*

### **HISTORIC WELLS BUILDING 10 N.W. Front St., Milford**

Interior and exterior rehabilitation and expansion of the Historic Wells Building located in North Milford Historic District. This mixed-use building contains commercial space on the 1st floor and rental apartments on the upper floors.

### **CIRCA 1860 137 E. Main St., Middletown**

Extensive renovation was completed on the exterior of this home to preserve and restore one of Middletown's original homes.

# PROTECTING HISTORIC RESOURCES

## PROJECT PROFILES

### **CIRCA 1830 BUILDING 411 Delaware St., New Castle**

Extensive interior renovation to the second floor of this building listed on the National Register included new electric and plumbing, renovating hardwood floors, and replacing bathroom and kitchen.

### **CIRCA 1850 BUILDING 10 S. Main St., Smyrna**

Extensive exterior renovation was made to the exterior replacing the stucco siding, repairing the decorative molding and storefront window. The first-floor commercial flooring was also replaced.

### **MEETINGHOUSE APARTMENTS LLC 430 N. West St., Wilmington**

Even in the face of several unexpected challenges, using both the DDD rebate and Federal/State Historic Tax Credits made the rehabilitation of this historic 11-unit multi-family building possible.

## PROTECTING HISTORIC RESOURCES

### INVESTOR SPOTLIGHT

#### **WILLIAM N.W. DORSEY HOUSE 113 N.W. Front St., Milford**

Lisa and James Hutchins purchased this historic home in 2021. It was originally built in 1840 by William N.W. Dorsey who was from a prominent family in Annapolis society. In its early years, it served as a post office and then a Clerk of the Peace.

The Hutchins family worked with architects and contractors experienced in historic structures, to carefully return the house to “period appearance”. The owners shared their positive experience in using the DDD rebate, Historic Preservation Tax Credits and incentives provided by Milford. The ease of use and multiple incentives made the renovation possible.

***“This program has saved the  
downtowns of Delaware. The  
spirit of cooperation is great.  
It’s palpable.”***

*~ James Hutchins*

# EXPANDING HOUSING OPPORTUNITIES

## PROJECT PROFILES

Since the program's inception, 72 percent (or 309) of all DDD projects had a residential component and created or preserved over 1,850 residential units. *The following are examples from Fiscal Year 2024.*

### **QUAKER ARTS LLC N. West St., Wilmington**

This 53-rental unit project is affordable to residents earning 30-80 percent of the area median income. Eight units are specifically adapted for persons needing accessible features.

### **SUSSEX COUNTY HABITAT FOR HUMANITY E. North St., Georgetown**

This newly constructed home by Sussex County Habitat for Humanity provides affordable homeownership and stabilizes distressed neighborhoods.

### **ALEMAN FITZGERALD PROPERTIES LLC 326 High St., Seaford**

Extensive interior and exterior renovations were completed to this mixed-use building with first floor commercial space and four residential units on the upper floor.

# SUPPORTING DOWNTOWN BUSINESSES PROJECT PROFILES

A total of 98 commercial projects were completed which ranged from very large commercial establishments to small-scale businesses. *Here are Fiscal Year 2024 examples.*

Photo Credit: 39 N Walnut LLC

Photo Credit: My Sisters Fault LLC

## **RAIL HAUS** (pictured above) **92 N. West St., Dover**

This project redeveloped an unused (previously industrial) building and its adjacent parcel into an indoor/ outdoor food venue.

## **39 NORTH WALNUT LLC** **39 N. Walnut St., Milford**

This historic building was in a severe state of disrepair and underwent substantial renovation to the exterior and interior of the building. The result is two prominent commercial tenants, office space, and residential units on the second floor.

## **MY SISTERS FAULT** **10 S.W. Front St., Milford**

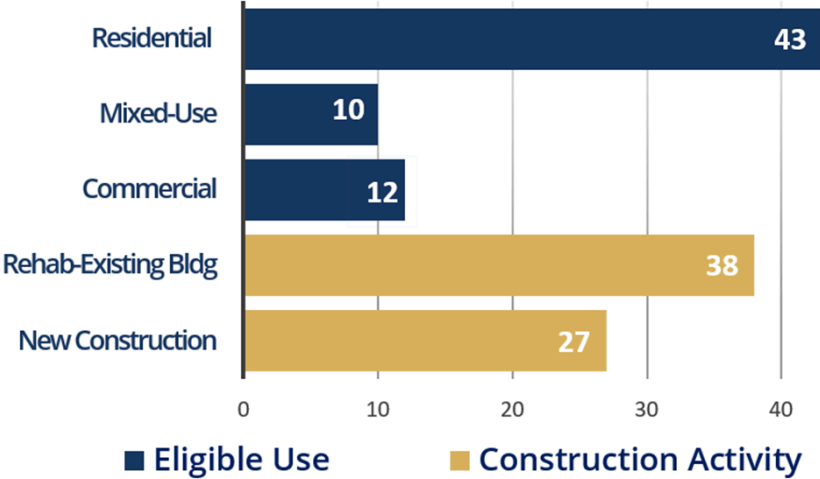

Interior and exterior renovation of a commercial space to expand an existing business.

# FISCAL YEAR 2024

## PROGRAM ACTIVITY

Over the past year, 9 Large and 56 Small Projects were completed, receiving \$4.3 million in state funds and leveraging \$48 million in private investment. In addition to numerous projects underway, \$8.5 million in state funds were reserved for 14 Large Projects and are expected to leverage \$171 million more in private investment.

### Eligible Use and Construction Activity

Most projects had a residential component creating a variety of housing options that help build a strong customer base for local downtown businesses. Forty-three residential projects created 118 residential units. Ten mixed-use projects contained street-level commercial and an additional 61 residential units in the upper floors.

Twelve projects were commercial and most were completed through the rehabilitation of existing buildings that were vacant or underutilized, and placing them back into productive use. Several historic buildings were restored using both the DDD rebate and state and federal historic tax credits.

### Summary of Fiscal Year (FY) 2024 Activity

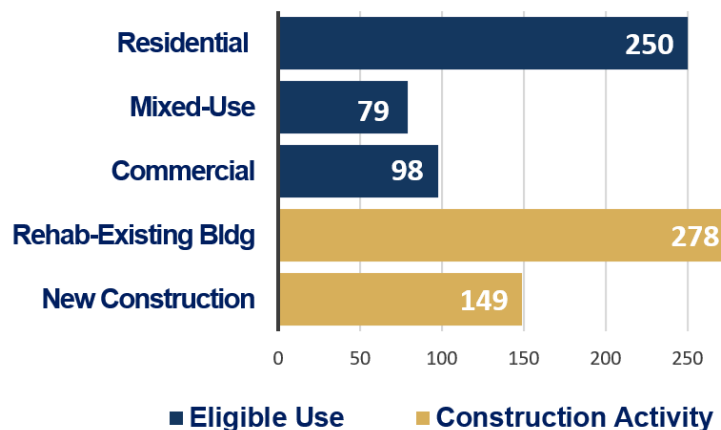

Rebates Issued	Total Project Costs	Rebates	Number
Small Projects	\$14,880,170	\$1,577,816	56
Large Projects	\$32,830,440	\$2,723,272	9
<b>Total</b>	<b>\$47,710,610</b>	<b>\$4,301,088</b>	<b>65</b>

# FISCAL YEARS 2014-2024

## PROGRAM ACTIVITY

Over 427 projects have been completed across all 12 Districts. This represents 354 Small and 73 Large Projects that are supporting new and existing businesses, creating a range of housing opportunities, renovating vacant buildings and supporting historic preservation. Just \$39 million in state DDD funds was able to leverage \$575 million in private investment.

### Eligible Use and Construction Activity

Almost 68 percent (or 250) of all DDD projects were residential and created 883 residential units. The mixed-use category has 79 projects which added an additional 1,000 residential units in traditional downtown buildings characterized by street-level retail and commercial and residential in the upper floors. There were 98 commercial projects completed.

Most projects were completed through renovating and adaptively reusing vacant buildings. In addition, the number of historical structures being preserved or restored continues to grow as investors become more comfortable combining the DDD rebate with federal and state historic tax credits.

### Rebates Issued by Activity and Eligible Use, FYs 2014-24

Rebates Issued	Total Project Costs	Rebates	Number
Small Projects	\$70,113,957	\$8,687,306	354
Large Projects	\$504,558,532	\$30,557,008	73
<b>Total</b>	<b>\$574,672,489</b>	<b>\$39,244,314</b>	<b>427</b>

# FISCAL YEARS 2014-2024

## DISTRICT USAGE

Program provisions ensure that investors from all Districts have access to DDD funds. The below table shows the completed projects by District through Fiscal Year 2024. The City of Wilmington has experienced the most activity with the completion of 50 Large Projects and 54 Small Projects since its designation in 2015. Approximately \$27 million of state DDD funds leveraged \$283 million in private investment.

The City of Milford created a range of strong incentives that are actively marketed to prospective investors. As a result, an infusion of projects and private investment has poured into their District with 7 Large Projects and 69 Small Projects.

Each District uses the program to address objectives specific to their community. Dover saw over 60 Small Projects completed by nonprofits to promote sustainable homeownership in areas. The Town of Seaford continues to be tremendously successful with its riverfront redevelopment.

### Projects by Districts, FYs 2014-24

District	Private Investment	DDD Rebate	Large Projects	Small Projects
Clayton	\$76,080	\$13,942	0	2
Delaware City	\$1,725,909	\$280,724	0	10
Dover	\$18,872,035	\$2,125,404	5	65
Georgetown	\$8,111,725	\$1,093,827	2	15

Wilmington	\$465,809,697	\$26,775,688	50	54
<b>Total</b>	<b>\$574,672,489</b>	<b>\$39,244,314</b>	<b>73</b>	<b>354</b>

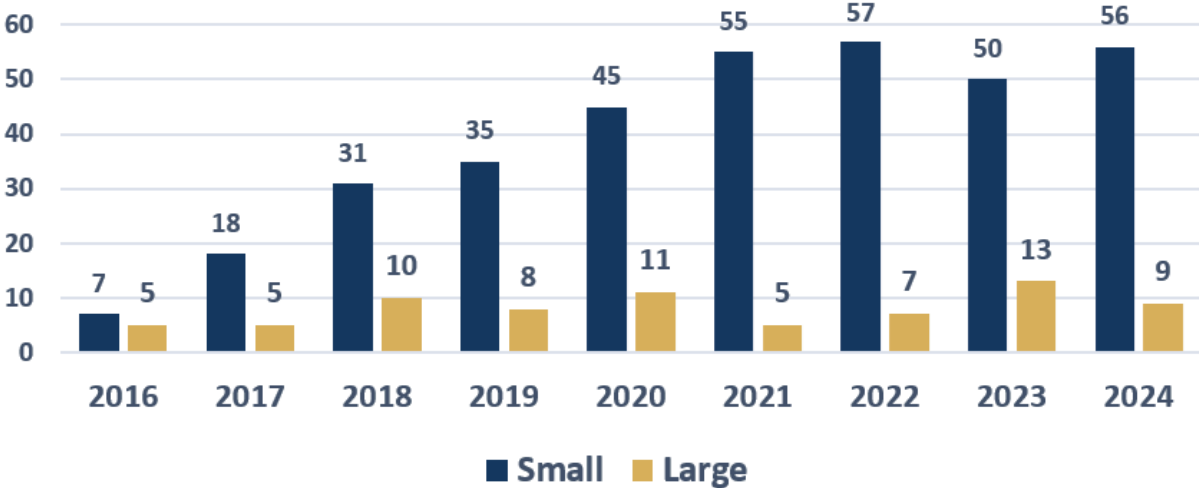

# FISCAL YEARS 2014-2024

## PROGRAM ACTIVITY

The below table breaks down the distribution of projects and private investment by Districts. As shown, the number of Small Projects has grown until year 2021 and has remained around 55 since. The number of Large Programs has remained consistent through the years. Unlike Large Projects, reservations are not required for Small Projects which makes it difficult to project the number of Small Projects currently underway.

See the Appendix Tables for more information on all projects.

### Project Type, FYs 2014-24
